Our Voices 2000

Our Voices - Marsha Houston 2000 "Our Voices: Essays in Culture, Ethnicity, and Communication examines intercultural communication through an array of cultural and personal perspectives, with each of its contributors writing a first-person account of his or her experiences in the real world. While most readers are collections of scholarly essays that describe intercultural communication, Our Voices presents short, student-oriented readings chosen with an eye toward engaging the reader. Collectively, the readings tackle the key areas of communication—rhetoric, mass communication, and interpersonal communication—using a uniquely expansive and humanist perspective that provides a voice to otherwise marginalized members of society. Praised by students for its abundance of short, first-person narratives, Our Voices traverses topics as diverse as queer identity, racial discourse in the United States, "survival mechanisms" in Jamaican speech, and codes of communication in nontraditional families."—Google Books viewed Mar. 5, 2021.

Intercultural Communication in Contexts - Judith N. Martin 2009-02-19 This popular text addresses the core issues and concerns of intercultural communication
by integrating three different perspectives: the social psychological, the interpretive, and the critical. The dialectical framework, integrated throughout the book, is used as a lens to examine the relationship of these research traditions. This text is unique in its emphasis on the importance of histories, popular culture, and identities. The new edition features expanded discussion on globalization, computer-mediated technologies, and the role of religion in global and domestic contexts and how they relate to intercultural communication.

Inter/Cultural Communication—Anastacia Kurylo 2012-07-23 Today, students are more familiar with other cultures than ever before because of the media, Internet, local diversity, and their own travels abroad. Using a social constructionist framework, Inter/Cultural Communication provides today's students with a rich understanding of how culture and communication affect and effect each other. Weaving multiple approaches together to provide a comprehensive understanding of and appreciation for the diversity of cultural and intercultural communication, this text helps students become more aware of their own identities and how powerful their identities can be in facilitating change—both in their own lives and in the lives of others.

Connections and Inclusions—Ahmet Atay 2020-08-27 This book presents different aspects of intercultural communication research as they connect to and intersect with sub-disciplines such as media studies, communication education, international communication, rhetorical studies, gender and sexuality studies, popular culture, and organizational communication. Intercultural communication (IC) scholars in the CSCA region have often been questioned, and sometimes challenged, by scholars who have claimed that the Midwest is not an ideal locale for studying communication across cultures and among people from varying cultural backgrounds. However, over the years, scholars have established that intercultural communication is an important area of scholarship in the Midwest (and beyond), and that the region offers plenty of opportunities for studying the intersections of cultural perspectives in communication, ranging from racial and ethnic discrimination to the adaptation process of international students and from immigrant experiences to issues in queer cultures. Because IC research does not exist in isolation, and it is always connected to larger frameworks or theoretical approaches within communication studies, the contributors in this book address how IC scholarship informs other areas of research and how IC scholars use the concepts and theoretical lenses of IC research to examine issues outside of IC. Although the focus is mainly on IC scholarship within the CSCA region, the scope of the book extends beyond this regional boundary as well. This book was originally published as a special issue of Communication Studies.

Ways of Social Change—Garth Massey 2015-07-21 The world is at our fingertips, but understanding what is going on has never been more daunting. Garth Massey’s Ways of Social Change is a primer for making sense of both rapidly moving events and the cultural and structural forces on which social life is built, while teaching critical thinking skills needed to understand social change. With an approach that is fresh, timely, challenging, and engaging, Ways of Social Change shows students how social change is both a lived experience and the result of our actions in the world. It invites the reader into the realm of social science, where clarification, understanding, and inquiry provide for both informed opinions and a path to effective involvement. The core of the book focuses on five forces that powerfully influence the direction, scope and speed of social change: science and technology, social movements, war and revolution, large corporations, and the state. A concluding chapter encourages students to examine their own perspectives and offers ways to engage in social change, now and in their lifetime.

Parenting with Reason-Esther Yoder Strahan 2009-12-04 Sometimes it feels as though everybody has an opinion on how you should bring up your child – and no two people seem to agree on how it should be done for the best! Parenting with Reason cuts through the masses of confusing and often contradictory advice about parenting by providing hard evidence to back up the tough decisions all parents face. Unlike many self-help guides to parenting which are based on the opinion of one author, this book is based on many findings from scientific research, giving you a trustworthy, ‘evidence-based’ guide to help see your way through parenting dilemmas. Written by a clinical psychologist, a developmental psychologist and a doctor of family medicine, the book looks at pressing questions such as: ‘What should I do when my child acts up?’, ‘How can I get my baby to sleep through the night?’ and ‘How do I begin to toilet-train my child?’ The authors, who are also parents themselves, debunk common myths about parenting, such as the notion that a healthy baby needs to be able to breastfeed at will throughout the night, or the idea that children who are adopted need specialized counselling. They also cover issues such as how children might be affected by seeing violence on television, how a parent’s psychological health can affect their child, what the scientific evidence is for and against circumcision, and how divorce and adoption affect a child’s development. The end of each chapter gives you ‘The Bottom Line’, a handy summary of the key points of each issue. This book is ideal for new or prospective parents, and paediatricians, family health providers and anyone who works with children and their parents will also find the book’s objective, scientific approach useful in their work.

Why I Hate Abercrombie & Fitch-Dwight McBride 2005-02-01 Why hate Abercrombie? In a world rife with human cruelty and oppression, why waste your scorn on a popular clothing retailer? The rationale, Dwight A. McBride argues, lies in “the banality of evil,” or the quiet way discriminatory hiring practices and racist ad campaigns seep into and reflect malevolent undertones in American culture. McBride maintains that issues of race and sexuality are often subtle and always messy, and his compelling new book does not offer simple answers. Instead, in a collection of essays about such diverse topics as biased marketing strategies, black gay media representations, the role of African American studies in higher education, gay personal ads, and pornography, he offers the evolving insights of one black gay male scholar. As adept at analyzing affirmative action as dissecting Queer Eye for the Straight Guy, McBride employs a range of academic, journalistic, and autobiographical writing styles. Each chapter speaks a version of the truth about black gay male life, African American studies, and the black community. Original and astute, Why I Hate Abercrombie & Fitch is a powerful vision of a rapidly changing social landscape.

Intercultural Communication-Fay Patel 2011-06-07 Competence in communicating across cultures is a prerequisite for success in today's fast-changing global community. In Intercultural Communication, Patel, Li and Sooknanan draw on their deep intercultural experience to show us how to build successful communication bridges across diverse cultures. The book explores various theoretical positions on global communication ethics and norms by providing an overview of the contemporary socio-cultural situation and seeking ways in which common ground may be found between these different positions. The authors raise points of critical reflection on intercultural events and issues in various areas of communication including health, work, environment and education. The book also covers a range of issues, from the interactions of various cultures to the expansion of social organizations and the growing global infrastructure. By integrating 'glocal' perspectives in intercultural communication, the book addresses the long-term strategy of developing a global community without sacrificing indigenous local
values.

**Hungarian Rhapsodies**-Richard Teleky 2011-11-01 Like the renowned American writer Edmund Wilson, who began to learn Hungarian at the age of 65, Richard Teleky started his study of that difficult language as an adult. Unlike Wilson, he is a third-generation Hungarian American with a strong desire to understand how his ethnic background has affected the course of his life. "Exploring my ethnicity," he writes, "became a way of exploring the arbitrary nature of my own life. It was not so much a search for roots as for a way of understanding rootlessness - how I stacked up against another way of being." He writes with clarity, perception, and humor about a subject of importance to many Americans - reconciling their contemporary identity with a heritage from another country. From an examination of photographer Andre Kertesz to a visit to a Hungarian American church in Cleveland, from a consideration of stereotypical treatment of Hungarians in North American fiction and film to a description of the process of translating Hungarian poetry into English, Teleky's interests are wide-ranging. He concludes with an account of his first visit to Hungary at the end of Soviet rule.

**Social Statistics**-Thomas J. Linneman 2014-02-03 Many fundamentally important decisions about our social life are a function of how well we understand and analyze DATA. This sounds so obvious but it is so misunderstood. Social statisticians struggle with this problem in their teaching constantly. This book and its approach is the ally and support of all instructors who want to accomplish this hugely important teaching goal. This innovative text for undergraduate social statistics courses is, (as one satisfied instructor put it), a "breath of fresh air." It departs from convention by not covering some techniques and topics that have been in social stat textbooks for 30 years, but that are no longer used by social scientists today. It also includes techniques that conventional wisdom has previously thought to be the province of graduate level courses. Linneman’s text is for those instructors looking for a thoroughly "modern" way to teach quantitative thinking, problem-solving, and statistical analysis to their students...an undergraduate social statistics course that recognizes the increasing ubiquity of analytical tools in our data-driven age and therefore the practical benefit of learning how to "do statistics," to "present results" effectively (to employers as well as instructors), and to "interpret" intelligently the quantitative arguments made by others. A NOTE ABOUT THE AUTHOR... At a recent Charter Day celebration, author Tom Linneman was awarded the Thomas Jefferson Teaching Award, the highest award given to young faculty members at the College of William and Mary. The citation for his award noted that Linneman has developed a reputation among his students as a demanding professor - but one who genuinely cares about them.

**White Fragility**-Robin DiAngelo 2018-06-26 The New York Times best-selling book exploring the counterproductive reactions white people have when their
assumptions about race are challenged, and how these reactions maintain racial inequality. In this “vital, necessary, and beautiful book” (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and “allows us to understand racism as a practice not restricted to ‘bad people’ (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to restate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

**Minor Feelings** - Cathy Park Hong 2021-03-02 A ruthlessly honest, emotionally charged, and utterly original exploration of Asian American consciousness and the struggle to be human "Brilliant . . . To read this book is to become more human."—Claudia Rankine, author of Citizen FINALIST FOR THE NATIONAL BOOK CRITICS CIRCLE AWARD FOR AUTOBIOGRAPHY * NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Jennifer Szalai, The New York Times * The Washington Post * NPR * Time * New Statesman * BuzzFeed * The New York Public Library * Book Riot Poet and essayist Cathy Park Hong fearlessly and provocatively blends memoir, cultural criticism, and history to expose fresh truths about racialized consciousness in America. Part memoir and part cultural criticism, this collection is vulnerable, humorous, and provocative—and its relentless and riveting pursuit of vital questions around family and friendship, art and politics, identity and individuality, will change the way you think about our world. Binding these essays together is Hong’s theory of "minor feelings." As the daughter of Korean immigrants, Cathy Park Hong grew up steeped in shame, suspicion, and melancholy. She would later understand that these "minor feelings" occur when American optimism contradicts your own reality—when you believe the lies you’re told about your own racial identity. Minor feelings are not small, they’re dissonant—and in their tension Hong finds the key to the questions that haunt her. With sly humor and a poet’s searching mind, Hong uses her own story as a portal into a deeper examination of racial consciousness in America today. This intimate and devastating book traces her relationship to the English language, to shame and depression, to poetry and female friendship. A radically honest work of art, Minor Feelings forms a portrait of one Asian American psyche—and of a writer's search to both uncover and speak the truth. Praise for Minor Feelings "Hong begins her new book of essays with a bang. . . . The essays wander a variegated terrain of memoir, criticism and polemic, oscillating between smooth proclamations of certainty and twitches of self-doubt. . . . Minor Feelings is studded with moments [of] candor and dark humor shot through with glittering self-awareness."—The New York Times "Hong uses her own experiences as a jumping off point to examine race and emotion in the United States."—Newsweek (40 Must-Read Fiction and Nonfiction Books to Savor This Spring) "Powerful . . . [Hong] brings together memoiristic personal essay and reflection, historical accounts and modern reporting, and other works of art and writing, in order to amplify a multitude of voices and capture Asian America as a collection of contradictions. She does so with sharp wit and radical transparency."—Salon

**Who Will Pay Reparations on My Soul?: Essays** - Jesse McCarthy 2021-03-30 "This is a very smart and soulful book. Jesse McCarthy is a terrific essayist." —Zadie Smith New York Times • "New Books to Watch For in March" A supremely talented young critic’s essays on race and culture, from Toni Morrison to trap, herald the arrival of a major new voice in American letters. Ranging from Ta-Nehisi Coates’s case for reparations to Toni Morrison’s revolutionary humanism to D’Angelo’s simmering blend of R&B and racial justice, Jesse McCarthy’s bracing essays investigate with virtuosic intensity the art, music, literature, and political stances that have defined the twenty-first century. Even as our world has suffered through successive upheavals, McCarthy contends, “something was happening in the world of culture: a surging and unprecedented visibility at every level of black art making.” Who Will Pay Reparations on My Soul? reckons with this resurgence, arguing for the central role of art and intellectual culture in an age of widening inequality and moral crisis. McCarthy reinvigorates the essay form as a space not only for argument but for experimental writing that mixes and chlops the old ways into new ones. In “Notes on Trap,” he borrows a conceit from Susan Sontag to reveal the social and political significance of trap music, the drug-soaked strain of Southern hip-hop that, as he puts it, is “the funeral music that the Reagan Revolution deserves.” In “Back in the Day,” McCarthy, a black American raised in France, evokes his childhood in Paris through an elegiac account of French rap in the 1990s.
In “The Master’s Tools,” the relationship between Spanish painter Diego Velázquez and his acolyte-slave, Juan de Pareja, becomes the lens through which Kehinde Wiley’s paintings are viewed, while “To Make a Poet Black” explores the hidden blackness of Sappho and the erotic power of Phillis Wheatley. Essays on John Edgar Wideman, Claudia Rankine, and Colson Whitehead survey the state of black letters. In his title essay, McCarthy takes on the question of reparations, arguing that true progress will not come until Americans remake their institutions in the service of true equality. As he asks, “What can reparations mean when the damage cannot be accounted for in the only system of accounting that a society recognizes?” For readers of Teju Cole’s Known and Strange Things and Mark Greif’s Against Everything, McCarthy’s essays portray a brilliant young critic at work, making sense of our disjointed times while seeking to transform our understanding of race and art, identity and representation.

**Minority Voices**-John Paul Myers 2005 In this unique reader, eighteen social scientists write about their own personal experiences, and those of their families, as members of a particular racial or ethnic group in the United States. Many essays tell compelling stories of how institutional discrimination operates, and how circumstances can persuade people to accept prejudice and discrimination. Several selections written by women who are also members of a racial or ethnic minority show how different types of discrimination interact. Each contributor compares the experience of his or her own family to the larger group experience, telling a story that is at once personal and sociological.

**Raise Your Voice**-Kathy Khang 2018-07-31 It can be hard to speak up when power dynamics keep us silent and marginalized, especially when race, ethnicity, and gender are factors. Activist Kathy Khang roots our voice and identity in the image of God, showing how we can raise our voices for the sake of God’s justice. We are created to speak, and we can both speak up for ourselves and speak out on behalf of others.

**Black Girls are from the Future**-Renina Jarmon 2013 These collection of essays reflects the author’s interests in the intersections between race and food, race and representation in film and literature, as well as race and new media.

**AOC**-Lynda Lopez 2020-08-11 NAMED ONE OF AUGUST’S BEST NEW BOOKS BY CNN | ON Cosmo’s LIST OF 12 BOOKS YOU’LL BE DESPERATE TO READ THIS SUMMER | ONE OF Autostraddle’s 60 QUEER & FEMINIST BOOKS COMING YOUR WAY THIS SUMMER | A 2020 TITLE TO WATCH BY Library Journal With a preface by Keegan-Michael Key In the vein of Notorious RBG, seventeen writers explore the multiple meanings of a young Latina politician who has already made history. From the moment Alexandria Ocasio-Cortez beat a ten-term incumbent in the primary election for New York’s 14th, her journey to the national, if not world, stage, was fast-tracked. Six months later, as the youngest Congresswoman ever elected, AOC became one of a handful of Latina politicians in Washington, D.C. Just thirty, she represents her generation, the millennials, in many groundbreaking ways: proudly working class, Democratic Socialist, of Puerto Rican descent, master of social media, not to mention of the Bronx, feminist—and a great dancer. AOC investigates her symbolic and personal significance for so many, from her willingness to use her imperfect bi-lingualism, to why men are so threatened by her power, to the long history of Puerto Rican activism that she joins. Contributors span a wide range of voices and ages, from media to the arts and politics: Keegan-Michael Key — Preface Lynda Lopez — Introduction: "The Meaning of AOC" Jennine Capó Crucet — "An Open Letter to Congresswoman Ocasio-Cortez" Andrea González-Ramírez — "Women Like Me Aren’t Supposed to Run for Office" Patricia Reynoso — "The First Latina to . . ." This Is One Way to Dance—Sejal Shah 2020 In the linked essays that make up her debut collection, This Is One Way to Dance, Sejal Shah explores culture, language, family, and place. Throughout the collection, Shah reflects on what it means to make oneself visible and legible through writing in a country that struggles with race and maps her identity as an American, South Asian American, writer of color, and feminist. This Is One Way to Dance draws on Shah's ongoing interests in ethnicity and place: the geographic and cultural distances between people, both real and imagined. Her memoir in essays emerges as Shah wrestles with her experiences growing up and living in western New York, an area of stark racial and economic segregation, as the daughter of Gujarati immigrants from India and Kenya. These essays also trace her movement over twenty years from student to teacher and meditate on her travels and life in New England, New York City, and the Midwest, as she considers what it means to be of a place or from a place, to be foreign or familiar. Shah invites us to consider writing as a somatic practice, a composition of digressions, repetitions—movement as transformation, incantation. Her essays—some narrative, others lyrical and poetic—explore how we are all marked by culture, gender, and race; by the limits of our bodies, by our losses and regrets, by who and what we love, by our ambivalences, and by trauma and silence. Language fractures in its attempt to be spoken. Shah asks and attempts to answer the question: How do you move in such a way that loss does not limit you? This Is One Way to Dance introduces a vital new voice to the conversation about race and belonging in America.

Tell Me Who You Are—Winona Guo 2019-06-04 An eye-opening exploration of race in America In this deeply inspiring book, Winona Guo and Priya Vulchi recount their experiences talking to people from all walks of life about race and identity on a cross-country tour of America. Spurred by the realization that they had nearly completed high school without hearing any substantive discussion about racism in school, the two young women deferred college admission for a year to collect first-person accounts of how racism plays out in this country every day—and often in unexpected ways. In Tell Me Who You Are, Guo and Vulchi reveal the lines that separate us based on race or other perceived differences and how telling our stories—and listening deeply to the stories of others—are the first and most crucial steps we can take towards negating racial inequity in our culture. Featuring interviews with over 150 Americans accompanied by their photographs, this intimate toolkit also offers a deep examination of the seeds of racism and strategies for effecting change. This groundbreaking book will inspire readers to join Guo and Vulchi in imagining an America in which we can fully understand and appreciate who we are.

Black, White, and in Color-Hortense J. Spillers 2003-05-28 Black, White, and in Color offers a long-awaited collection of major essays by Hortense Spillers, one of the most influential and inspiring black critics of the past twenty years. Spanning her work from the early 1980s, in which she pioneered a broadly poststructuralist
approach to African American literature, and extending through her turn to cultural studies in the 1990s, these essays display her passionate commitment to reading as a fundamentally political act—one pivotal to rewriting the humanist project. Spillers is best known for her race-centered revision of psychoanalytic theory and for her subtle account of the relationships between race and gender. She has also given literary criticism some of its most powerful readings of individual authors, represented here in seminal essays on Ralph Ellison, Gwendolyn Brooks, and William Faulkner. Ultimately, the essays collected in Black, White, and in Color all share Spillers's signature style: heady, eclectic, and astonishingly productive of new ideas. Anyone interested in African American culture and literature will want to read them.

The Absolutely True Diary of a Part-Time Indian-Sherman Alexie 2012-01-10 Bestselling author Sherman Alexie tells the story of Junior, a budding cartoonist growing up on the Spokane Indian Reservation. The Nowhere Girls-Amy Reed 2019-07-09 “A call-to-action to everyone out there who wants to fight back.” —Bustle “Scandal, justice, romance, sex positivity, subversive anti-sexism—just try to put it down.” —Kirkus Reviews (starred review) “Cuts straight to the core of rape culture—masterfully fierce, stirring, and deeply empowering.” —Amber Smith, New York Times bestselling author of The Way I Used to Be Three misfits come together to avenge the rape of a fellow classmate and trigger a change in the misogynist culture at their high school transforming the lives of everyone around them in this searing and timely story. Who are the Nowhere Girls? They’re everygirl. But they start with just three: Grace Salter is the new girl in town, whose family was run out of their former community after her southern Baptist preacher mom turned into a radical liberal after falling off a horse and bumping her head. Rosina Suarez is the queer punk girl in a conservative Mexican immigrant family, who dreams of a life playing music instead of babysitting her gaggle of cousins and waitressing at her uncle’s restaurant. Erin Delillo is obsessed with two things: marine biology and Star Trek: The Next Generation, but they aren’t enough to distract her from her suspicion that she may in fact be an android. When Grace learns that Lucy Moynihan, the former occupant of her new home, was run out of town for having accused the popular guys at school of gang rape, she’s incensed that Lucy never had justice. For their own personal reasons, Rosina and Erin feel equally deeply about Lucy’s tragedy, so they form an anonymous group of girls at Prescott High to resist the sexist culture at their school, which includes boycotting sex of any kind with the male students. Told in alternating perspectives, this groundbreaking novel is an indictment of rape culture and explores with bold honesty the deepest questions about teen girls and sexuality.
