Youth, Risk, Routine

Youth culture have changed along with the economic, political, and cultural transformations of American society in the twentieth century. In the 1960s and 1970s, youth culture was defined by a variety of subcultures, such as punk rock, hardcore, heavy metal, glam, thrash, alternative rock, grunge, and riot grrrl music, and relates them to wider social movements and broader cultural trends.

A Sociology of Japanese Youth

By examining these various social problems, the book is written to provide some understanding of the ways in which contemporary social issues arise and how they affect individuals and communities. It is intended for students of sociology, political science, and international studies.

Popular Music and Youth Culture

The sociology of youth culture and youth subcultures is a field of study that examines the relationships between youth and music, and the ways in which music influences the development of youth identities. This field of study is often associated with critical social theory and cultural studies, and has been influential in shaping our understanding of youth culture.

Youth Culture and Sport

Youth Culture and Sport critically interrogates and challenges contemporary understandings of youth, sport, and youth culture. It critically examines the relationship between sport and youth culture, and the ways in which these two phenomena are constructed and reproduced in society.

Youth Culture and Sport is a groundbreaking book that brings together leading scholars from cultural studies, sociology, and social work to critically examine the relationship between youth culture and sport. It will be of interest to students and researchers in these fields, as well as to policymakers and practitioners involved in youth and sport development.

-Donald Dwyer 2013-02-13 The book begins by examining the social contexts of the three Eastern European conferences on youth culture and identity that were held in Bulgaria, Poland and Russia in 1991. These events, held in the immediate aftermath of the revolutions of 1989, were seminal in the emergence of new discourses on youth culture, identity and politics in post-socialist Europe. The book goes on to consider the development of youth culture research in Central and Eastern Europe during the 1990s and early 2000s, and then to trace the evolution of youth culture research in the current globalized era.

-Xuelin Zhou 2016-08-05 This book explores the vigorous film cultures of mainland China, Taiwan and Hong Kong from the 1990s to the present day. It makes a significant contribution to contemporary film studies by examining the shifting cultural dynamism of the three regions and their shared influence on the global arena.
