The Wedding Complex - Elizabeth Freeman 2002-10-10

In The Wedding Complex Elizabeth Freeman explores the significance of the wedding ceremony by asking what the wedding becomes when you separate it from the idea of marriage. Freeman finds that weddings—as performances, fantasies, and rituals of transformation—are sites for imagining and enacting forms of social intimacy other than monogamous heterosexuality. Looking at the history of Anglo-American weddings and their depictions in American literature and popular culture from the antebellum era to the present, she reveals the cluster of queer desires at the heart of the "wedding complex"—longings not for marriage necessarily but for public forms of attachment, ceremony, pageantry, and celebration. Freeman draws on queer theory and social history to focus on a range of texts where weddings do not necessarily lead to legal marriage but instead reflect yearnings for intimate arrangements other than long-term, state-sanctioned, domestic couplehood. Beginning with a look at the debates over gay marriage, she proceeds to consider literary works by Nathaniel Hawthorne, William Faulkner, Carson McCullers, Vladimir Nabokov, and Edgar Allan Poe, along with such Hollywood films as Father of the Bride, The Graduate, and The Godfather. She also discusses less well-known texts such as Su Friedrich's experimental film First Comes Love and the off-Broadway, interactive dinner play Tony 'n' Tina's Wedding. Offering bold new ways to imagine
attachment and belonging, and the public performance and recognition of social intimacy, *The Wedding Complex* is a major contribution to American studies, queer theory, and cultural studies.

_The Philosophy of the Bed_- Mary Eden 1961 "About a third of the normal human life is spent in the horizontal position, and from the earliest times man has recognized that this far from inconsiderable period should be passed as pleasurably as possible. Other members of the animal kingdom lie down to rest and to die, and some build elaborate structures to provide greater comfort in repose or a suitable environment for the reproduction of their young. These, of course, are beds of a kind, but the special type of bed we shall be mainly concerned with here is unique to man. It is, in fact, the object, raised on four legs amid supporting a mattress and coverings of various kinds, which has become a familiar feature of every civilized home." -- Preface.

Sex and Marriage in Ancient Ireland - Patrick C. Power 1993 The Norman king, Henry II, came to Ireland in the 12th century with the intention of converting the Irish to the True Faith. What type of society had he come to convert? The outside accepted view was that Irish people were near-savages and that their marriage customs caused them to be regarded as incestuous, so that the invasion, in the eyes of the invaders, was in the nature of God's work, to redeem the people from their abominations and iniquities.
