Thinking in Bets: How to Be a Better Decider

Thinking in Bets is a book written by Daniel Kahneman, the Nobel prize-winning psychologist known for his work on cognitive bias. In the book, Kahneman explores the idea that we are better at making decisions if we think of them as bets, rather than as certainty. He argues that this approach allows us to acknowledge uncertainty and make better decisions, even in situations where we don't have all the information.

The book is divided into two parts: the first part focuses on the cognitive biases that lead us to make poor decisions, while the second part discusses a decision-making framework that can help us make better bets. Kahneman draws on examples from various fields, including finance, politics, and sports, to illustrate his points.

Thinking in Bets is a valuable resource for anyone who wants to improve their decision-making skills, whether in their personal or professional life. It is written in an accessible style and is suitable for readers with a general interest in psychology and decision-making.

Moon Living Abroad Japan

Moon Living Abroad Japan is a comprehensive guidebook that provides practical information for people moving to Japan. The book covers various aspects of life in Japan, including language, culture, and everyday life. It also includes tips and advice for finding housing, transportation, and other essential services.
