Consequently, Islamists’ polities have largely been abject, often tragic failures in providing a viable collective life... for the Muslim Brotherhood in Egypt (under President Muhammad Morsi’s tenure), Hassan Turabi’s National... characteristics of Islamic thought, abundantly illustrated with the citation of relevant Quranic verses.

In his analysis of the political thought of Sayyid Qutb, Al-Din Moussalli describes the development of a view of Islam as monolithic and implacable. He takes a broad view of the intellectual and cultural contexts in which Qutb engaged, illustrating the complexity and nuance of his ideas.

The project examines the ways in which Islamists have sought to provide a collective life for their followers, and how these efforts have been shaped by the broader historical, social, and political contexts in which they have operated. It explores the ways in which Islamists have sought to reconcile their understanding of Islamic thought with the demands of political life, and how these efforts have been shaped by the broader historical, social, and political contexts in which they have operated.

The symbolic interactionist approach to the study of religion allows an appreciation of the subjective experience of religious people through the examination of the ways in which they construe, experience, and reinterpret their world. This approach emphasizes the subjective and interpretive dimensions of religious experience and the ways in which individuals and communities construct meaning and understanding of their religious beliefs and practices.

The project explores the ways in which Islamists have sought to reconcile their understanding of Islamic thought with the demands of political life, and how these efforts have been shaped by the broader historical, social, and political contexts in which they have operated.

The Mind of the Islamic State

Patrick Berman 2013-06-03 There has been a significant upsurge of western interest in the political manifestations and ideological sources of terrorism in recent years. One of the most intriguing questions is how Islamic 'revival', the Iranian revolution and by events in countries as diverse as Egypt, Pakistan and Sudan. Oil

The handbook provides a comprehensive guide to the key concepts, thinkers, and issues that shape our understanding of political Islam today. It is an essential resource for students, researchers, and policymakers interested in the political, social, and cultural implications of political Islam.

Islam is a central focus of the handbook, which explores its role in shaping political thought and action across the globe. It examines the diversity of political Islam, from its moderate and reformist strands to its more radical and extremist expressions. It also considers the ways in which political Islam has been influenced by local and regional contexts, as well as by global trends and pressures.

The handbook also covers the role of Islam in the political and social life of Muslim-majority countries, considering issues such as the relationship between religion and politics, the role of women in public life, and the impact of religious scholarship on contemporary thought and practice.

Ahmed Salah al-Din Moussalli 1989-06-03 While the Handbook of Islamic Political Thought provides a comprehensive guide to the key concepts, thinkers, and issues that shape our understanding of political Islam today, it is not a substitute for the detailed study of political Islam, which requires a deep understanding of the historical, social, and cultural contexts in which it has developed.

The handbook will be a valuable resource for students, researchers, and policymakers interested in the political, social, and cultural implications of political Islam.

The Oxford Handbook of Comparative Political Thought

Leigh K. Jenco 2019 “The Oxford Handbook of Comparative Political Theory provides an entry point into this burgeoning field of inquiry, and is essential reading for anyone interested in this area of study.”

The handbook demonstrates how mainstream political theory can and must be enriched through engagement with the political thought of a wide range of political thinkers, from ancient to contemporary, from the East to the West, and from the religious to the secular. It also explores the ways in which comparative political thought can help us understand and evaluate political theories and practices from around the world.

The handbook is an essential resource for students, researchers, and policymakers interested in the political, social, and cultural implications of political Islam.
